

Appl. No.: 10/825,491

Amdt. Dated June 13, 2008

Response to Office Action Mailed December 13, 2007

REMARKS:

Applicant appreciates the time and care the examiner has taken in examining the application.

The only independent claim in this application, claim 9, has been amended to incorporate the method step of chamfering the edge surface of the eyeglass lens so as to change a width of the chamfering of the edge surface so that a proportion between a width of the front edge portion and a width of the back edge portion is gradually changed throughout all periphery of the eyeglass lens. It is respectfully submitted that this method step is nowhere taught in the cited reference. Further, it is submitted that the claim as amended is not rendered obvious by the disclosure of the cited reference. Thus, it is submitted that the Section 102(b) and Section 103(a) rejections have been overcome and should now be withdrawn.

In view of the foregoing, it is respectfully submitted that it is submitted that the rejections should be reconsidered and withdrawn; that the application is in condition for prompt allowance; and that all of the objections, rejections and requirements raised in this application have now been met. Early, favorable treatment of this application is requested.

Extension Request and Deposit Account Charge Authorization.
